You wanna know why? Johnny Afro is just trying to express his personality. He's using tight beats and catchy rhythms to get his thoughts across. Don't support him. How could we pay him to enjoy his work. That would be Ludacris. Let's let him make all this great music and captivate our interests and make sure he gets nothing for it. After all he is black. We should just play the race card. Everybody else does. Plus it doesn't sound like he has a 5 million dollar promotional budget like Jay and some rappers....so why should we support him. Who does he think he is? Just because he promotes self-sufficiency and honor and skills doesn't mean he deserves compensation. Why he could have been the worlds greatest runningback but we made sure he didn't get any game so nobody will ever know. We've got to do the same with his music. Besides if he ever gets rich he'll help his own people and who would want that ish. Besides he's not even racist?? He employs spanish, white, black, and all races. He's an f'in Philanthropic humanitarian. He's that type that would probably help the homeless.. Matter fact let's all Boycott Johnny Afro and make sure he gets banned!!!!
