Great music with a message of life, love, and desire. 10 MP3 Songs COUNTRY: Modern Country, COUNTRY: Traditional Country Details: Lee Sheehan has been carving out an impressive career as a singer/ songwriter. His distinguished debut album Detroit Steel has helped to establish him as a sought after performer and composer. Passionate music that perfectly blends compellingly expressive lyrics with exciting melodic lines, delivering that certain heart tugging emotional consciousness from deep within. From Dads Song haunting steel guitar work that seems to linger forever, ringing out around the words ..its not how long you live but how you do.. to My Wish For You, a vividly striking tune of love for a precious young son. Music that is not only heard, but felt as well. The following bio is taken from Lees official web site leesheehan.com. ...Lee Sheehan singer, songwriter and guitarist grew up in Pennsylvania and Ohio, where he absorbed a huge variety of great music. Taking after his father he began playing guitar at an early age, polishing his craft from that point on. As for his taste in music he likes country, bluegrass, rock, folk, R&B and contemporary jazz. Some of his favorite-recording artists are Jim Croce, James Taylor, Stevie Ray Vaughan, John Mayer, Jeff Healey and The Eagles. Being self-taught and playing guitar by ear, Lee developed a smooth finger picking style along with some real nice flat picking techniques. His debut album Detroit Steel" says a lot about Lees passion for love, life, fast cars and sweet bikes. Having loved a wonderful lady for over thirty years, working for as many years in the auto industry, he delights in taking long cruises on his (union made) American motorcycle. His mystical way with words and innumerable life experiences has given rise to a song-writing style that never fails to combine meaningful lyrics with extraordinary heartfelt melodies. Now as a successful solo recording artist, Lee looks forward to having fun times with his live audiences. Of course he will be writing and recording new songs.
