

Mp3 Project 814 - Declassified

[DOWNLOAD HERE](#)

A new genre is formed called "Conspiracy Rock" - Classic rock with Progressive tendencies and meaningful lyrics. Yes, Tull and Rush with some Cream for flavoring. 10 MP3 Songs ROCK: Progressive Rock, ROCK: Classic Rock Details: "In 1963 an event took place that would change the world, FOREVER. Now, nearly 40 years later, The Secret Has Been Revealed." Project 814 "Declassified" ushers in a return to the truth in rock music by combining elements of traditional classic rock with progressive tendencies and meaningful lyrics. Launched in a time when the music industry superpowers appeared focused on force-feeding the public "manufactured" boy bands, "sexually enhanced" teenyboppers and the self-destructive screams of metallic rappers. It was because of this overwhelming evidence of a global conspiracy to deceive the ears and control the minds of music fans that a new genre of music was formed, called "conspiracy rock". Project 814 Declassified is another salvo fired in an effort to further unveil the fact that there is truth and talent found in independent music.

Songwriter/Bassist/Executive Producer Jon Pomplin has created a journey that explores ideas about teen suicide, alcoholism, spirituality and the eternal search for love. Jon runs the gambit and puts it all out on the table for the listener with his powerful lyrical imagery and intricate musical soundscapes. The CD features veteran Cellar Records session musicians Mark Summers on guitar, Jim Miller on keyboards, Bob "the Birdman" Brady on percussion, and acclaimed Producer/Vocalist Todd Joos on vocals. A voting member of NARAS and multiple top 40 Billboard and Cashbox charted artist Joos also produced, engineered and mastered the CD at Cellar Records studios. Jon Pomplin is a proud endorser of GHS Strings, Rocktron Preamps, Morley Pedals and Hot Wire Basses. Mark Summers is a proud endorser of Randall Amplifiers.
