Details: "Sounds From The Canyon" is a powerful hypnotic journey, and was recorded live on location in a canyon to capture the mood of nature in that certain place. A group of people sat quietly in a candlelit room and listened to Sounds From The Canyon. Each person had a pen paper to write their feelings down for each track. Here is some of the feelings that were written... 01. Seeing-In -Feels like I am seeing-in. -Creepy. -Feels like I am in a coal mine. -I love the transition into the piano. -Recoil. -I feel like floating. -Mind blowing. -Unreal. -Very captivating! -Very relaxing. -Smooth. 02. Grand Illusion -Sun after rain; redemption; the dawn of a new day. -At peace with one's self. -It gives me a sense of being lifted up and then having to look down on the world. -Epic. -Romantic. -Walking through the mist, searching still. -Kinda sounds like Dead Can Dance. 03. Follow Me -Love the piano. -This is sad. -I am following you to another world, and the huge transition at the end is when we are finally there. -It gave me the chills. -I see a man staring at me, why? I walk towards him, he starts dancing with me, he's here but gone. -Where do we end where do we begin? 04. Sacred Ground -I'm speechless! -Heaven meets Hell. -I am sitting in a cathedral hallway. -Everything's gonna be okay...(or is it?); Haunting; Uncertainty all around. -Voices in my head that won't go away. -I feel like I'm walking on water. -Trippy! -These sounds are so powerful. 05. Escaping Reality -Very abstract. -I love how these sounds sneak up on you! -Out of body, "the big picture". -Haunting dark. -Ufo. -I feel like I can play with the stars. -I feel invincible weightless. -Trippy! -Control in every sense; nothing's what it seems to be...look closer you'll see!
