Alternative Music Instrumental Beats. 14 MP3 Songs EASY LISTENING: Background Music, URBAN/R&B: R&B Pop Crossover Details: Ronnie Winston first started producing music in 2002. He was influenced by many artists like Rick James, Quincy Jones, Dr. Dre just to name a few. He listened to all types of music and even listened to oldies music like the Rock Roll Era of the 50s 60s, Doo-Wop and Funk music of the 70s. He studied the craft of producing music and thought to himself Why dont I make my own music? With purchasing some music studio software and loops he went right to work creating his first song. Over the years he made great progress perfecting his craft he has produced over three albums to his collection. His main genres of music he produces are: Urban, R&B, Funk, Dance and Electronic grooves. He later decided to form a record label for his music called: Night Cruiser Music. His future plans are to produce music for up and coming and already established recording artists and television and film soundtrack.
