LISTENING: Easy Pop Details: Rose blooms yet again with her new single, Cant Hold Me Back. If you're familiar with her work, you have probably noticed by now that Rose colours outside the lines of musical expectation. One moment, youre heartstrings are being pulled by one of her piano ballads, and the next, your body is dancing with your arms in the air. This song definitely leans towards the dancing with your arms in the air, especially after the bridge. It starts subtly, with a laid back beat, a piano hook, and some nice percussive ear candy. She takes an honest and direct vocal approach theres little vocal gymnastics here but this song doesnt require it, as you are carried towards the bridge and before you know it arms in the air. Even for the most reserved listener, their body will want to move to this song when it opens up. Originally from Vancouver, Canada, Rose Reiter's eclectic pop compositions reflect her influences from growing up in such a multicultural city. Her voice spans several genres and her compositional style ranges from the simple melodic singer songwriter to more complex productions, such as Can't Hold Me Back. Can't Hold Me Back was inspired by her life in New York. (Her main production studio is currently based on Vancouver Island, but she spends part of every year in Manhattan working with other artists and industry professionals.) Walking along the streets of New York, Rose finds inspiration with the energy and fearlessness of that city and its people. Having grown up in an multi-ethnic working class neighborhood on the east side of Vancouver, Rose is always drawn to meeting people from around the world and is inspired by their life stories. With Cant Hold me Back, Rose captures the boldness and strength that so many of us require to move forward with our dreams and our lives . This song is one of fearlessness and courage to walk your unique path. It is the self talking to the self reminding us that we can do whatever we put our minds towards, as long as we dont let fear stop us. Up until Dec 31, 2008, 50

\*\*\*\*\* Raising Malawi Copied from the raisingmalawihome page: Our Mission Since 2006, Raising Malawi has been dedicated to bringing an end to the extreme poverty and hardship endured by Malawis one million orphans. Co-founded by Madonna and Michael Berg, Raising Malawi uses a community-based approach to provide immediate direct physical assistance, create long-term sustainability, support education and psycho-social programs, and build public awareness through multimedia and worldwide volunteer efforts. As a part of its activities, Raising Malawi works to distribute financial support that will help community-based organizations provide vulnerable children with nutritious food, proper clothing, secure shelter, formal education, targeted medical care, and emotional support. We do not create or manage our own programs in Malawi; rather we support dedicated people on the ground and in the villages, the ones closest to the realities that exist. We believe in empowering the smartest and most caring of those people, the ones who understand the challenges and the solutions. By choosing to work at a community-based level, rather than trying to impose Western beliefs and methodologies on a different culture, real and lasting change is occurring in the lives of hundreds of thousands of impoverished children in Malawi. \*\*\*\*\* People who are interested in Tori Amos Sade Paula Cole should consider this download.
