

Mp3 Ruchelle - From A Dark Place

[DOWNLOAD HERE](#)

Feel the power of "From a Dark Place". "This Town" offers a take on Las Vegas and it's inhabitants. "Simple Man Sings" speaks to the healing power of music in it's purest forms. 9 MP3 Songs POP: with Live-band Production, BLUES: Piano Blues Details: A buzz is making it's way from the smoky lounges of the Las Vegas night life. Ruchelle has them talking. With just her looks, major labels could manufacture a pop star. But make no mistake, she is the real deal. Soulfully poignant, yet powerfully captivating in the same breath, Ruchelle's voice is that rare combination of tone, pitch, and emotion that define the greats. In spite of her pop sensibilities, after seeing or hearing her perform, the pretty packaging yields to substance and soul when you describe what you have just experienced. Since her teens in Los Angeles, Ruchelle has been lending her voice in support of a variety of projects. From European chart topping dance tracks, national t.v. exposure singing background for various artists, to guest performances in some of jazz and rock's most legendary venues, her voice has defined her and brought her recognition from fellow performers and fans. Largely self taught, she briefly studied under Lis Lewis, celebrity vocal coach of Gwen Stefani, Britney Spears, Bobby McFerrin among others, who described Ruchelle as having "a truly rare talent and power in her voice." Her album "From A Dark Place" finds Ruchelle collaborating with Songwriter Steve Prohormoff and Las Vegas's own Sarah Theile, to offer a peering look into that normally hidden place of vulnerabilities, sorrows and hopes. Supported by some of Vegas's best session players and found worthy to be mixed by Elliot Peters, known for his work with Gladys Knight, Faith Evans, Anita Baker, Boyz 2 Men and many more. This compilation of tracks offers something for everyone and gives a glimpse into the yet to be fully realized potential of Ruchelle as a singer, songwriter and performer.
