*Sgt. PEKKER*

Just like the Beatles, only funnier. 23 MP3 Songs POP: Beatles-pop, ROCK: Classic Rock Details: Sgt. PEKKER is a fiction by composer/musician Arthur Jarvinen, writing and performing as the fake flabulous foursome of John Paul Pope, JeanPaul Fabb, Audman Aoudt, and Otto DaFaye, with arrangements and orchestrations by Gerald "Booth" Martin (sometimes referred to as "the fifth Pekker"). It is an "anti-thology" of material from The Even Whiter Album, Let's Make It Side B, and Flabby Load. If you know and love the Beatles you will get the humor, and will either love this concept album - or not! Advisory - Sgt. Pekker contains some off-color humor and explicit language. Not for children or polite company.
