Details: Thyagi Das (Thyagi Ryan) Imbued in poetic - conscious vibrations, Thyagi's musicality travels from the sounds of Brazilian rainforests and takes us beyond any pre-conceived idea of what World Music really is. With a natural ease with the guitar, his intrinsic finger-picking produces a full range of innovative polyrhythmic melodies, all blended down in what he calls New World Music. Since his coming to the UK in 2002, Brazilian guitarist/composer Thyagi Das has partnered many talented musicians, such as the new generation Brazilian singer Cibelle, Spanish virtuoso guitarist Eduardo Niebla, Indian tabla player Sirishkumar, and others... The CD: This music carries Thyagi's and many others' convictions of a world beyond limitations, an Inner reality that Thyagi deeply believes and lives inspired by. Each song brings an opportunity for this direct invitation, a sincere diving into the unknowable SELF that we are. This CD, with its poems for each instrumental piece (not recorded), can be used as a guided meditation, inspiring a free-flow expression of the listener according to his(her) will, or simply as a silent contemplation; feel free to explore and enjoy the inner journey! Happy Awakenings! Thyagi Das
