An eclectic collection of Inspiring and uplifting Praise and Worship songs. 10 MP3 Songs GOSPEL: Contemporary Gospel, WORLD: African Details: People listen to music for different reasons. I have always listened for the experience. Good songs give you memorable experiences. I've explored this belief of experiential music in 2 recordings within this series called "Eledumare" (which basically means GOD)- Vol. 2 and Vol. 3. They are both available on CDBaby. I also work with individual artists to provide similar experiences for people and one of such is this 2001-2003 latest collaboration "Expression" with a lovely, unique vocalist "Tutu Babalola". This expressions recording is slightly different from the Eledumare series in that it explores the sounds of a single vocalist compared with the various vocalists featured on Eledumare. I have also emphasized more on original music on Expressions. This will be a series with various individual vocalists so expect other "Expressions..." Tutu Babalola, the vocalist on "Expressions... of Faith" is a Medical Doctor by profession and a passionate believer which comes through when she sings.
