Fully Customizable Web 2.0 OTO Templates If youre anything like me, you LOVE watching video on the web. Even better... youre either using video on your own website and blogs right now... or youre seriously thinking about it. All you have to do is add your products to the product boxes, and link the Buy Button to your payment processor. Then, just add all your sales copy or other content. The Buy Button price can be changed right in the html, or use an html editor like Dreamweaver or NVu. You get all the .psd files for the graphics, so if you wish to change the color scheme, you can simply change the price on the button graphic in Photoshop and then export the entire button graphic as a .jpg, instead of slicing the graphic and creating an html button like Ive done. Your choice. The footer graphic can, of course be changed if you have photoshop. If you dont have photoshop, Ive included a blank footer graphic labeled footer2.jpg. Just substitute the name of that file in the code. Ive also included some web 2.0 style colors you can use in the .psd files.
