This exclusive Jeremy Sylvester contains 10 best seller sample packs for a hugely reduced price. Over 50 OFF Back to 95 - Vol 1 This Exclusive new sample pack by Jeremy was developed to provide you with essentials to add special ingredients into your own musical productions. Some say the early nineties provided some of the best House music of all time and this special sample pack was designed to capture those elements. The pack contains various musical loops, drum loops, construction kits, one shots & hits in multiple formats that include 24 bit WAV, REX2, MIDI & APPLE LOOPS which will be compatible with most software instruments used in todays music productions. The drum sounds have been taken from Jeremys own personal AKAI MPC 3000 & S950 sound library disks and re-formated. All the musical loops, basslines, one shots and drum loops have been made using Pro-Tools hardware, Reason & Logic 9 software. The pack contains 100s of Jeremys favorite tried and tested drum sounds which hes still

using to this day. So if your looking for authentic Uk Garage and classic House music sounds influenced from those wonder years of the early nineties in your music productions, then this is something for you. And of course, this pack can be used effectively in many other genre from Broken beat, Deep House, Deep Tech, Soulful House, 2-Step, Dubstep and much more, so use your imagination and let it run free.

Back to 95 - Vol 2 This is the second part in the highly popular Back to 95 Series originally released in 2010. Developed by pioneering UK House & Garage producer Jeremy Sylvester. This pack is inspired by the early USA & UK underground House & Garage scene from around 1995 when few people would argue were the best years of House Music. This exclusive sample pack borrows inspiration from labels such a Strictly Rhythm, Eight Ball, Nice n Ripe, Azuli Records, Nervous Records and artist such as MAsters at Work, Kerri Chandler, Jeremy Sylvester, Grant Nelson, Ron Trent, Chez Damlier and many more. This pack is designed to be used in other related genre such as Deep House, Deep Tech, UK Garage, Classic House, Soulful House, Funky House and UK Funky.

Club Asylum Essentials If your looking for authentic UK Garage, Old Skool or 2 Step sound files, then look no further than this. This pack has been created by the most respected UK Garage production team Club Asylum, who have been responsible for many UKG remixes and productions for many years..

Dirty Dutch House Loops Dutch House Often referred to as Dirty Dutch is the more harder of the eletro house sound currently very popular in the clubs all over the world. The style originally out of the Netherlands and championed by pioneering producers and DJs such as Laidback Luke and Afrojack. This exclusive pack contains awesome tried and tested hard edge Afro/Latin House loops designed to give maximum impact on the dancefloors. Also included are various one shots, effects and synth lead sounds to get your body pulsating. The pack comes in multiformats which include 24 Bit Wav, Apple/Aiff, MIDI and Rex2 files compatible with most popular software instruments such as Reason, Ableton, Logic, FL Studio, Halion, Pro Tools and much more.

Dirty Electro Essentials Included in the package are 80 royalty free Vocal parts which can be used in your productions without the hasstle of trying to gain clearance. All vocals are exclusively prepared for this sample pack. Create dirty electro vibes with a superb selection of one shot synths and hits to give your productions a tougher electro sound together with an awesome collection of up to the minute electro style beats and loops to create maximum damage on the club dance floors.

Love House - Deep n Soulful - Vol 2 This is the second part to Love House Series originally released in 2010. Developed by pioneering UK House & Garage producer Jeremy Sylvester. This pack is inspired by the
