

A Knight At The Movies: Medieval History On Film - John Aberth

[DOWNLOAD HERE](#)

Imagining the Middle Ages is an unprecedented examination of the historical content of films depicting the medieval period from the 11th to the 15th centuries. Historians increasingly feel the need to weigh in on popular depictions of the past, since so much of the public's knowledge of history comes from popular mediums. Aberth dissects how each film interpreted the period, offering estimations of the historical accuracy of the works and demonstrating how they project their own contemporary era's obsessions and fears onto the past.
