Hardcore Electronica mixed with spoken word. Mind bending emotional music. 10 MP3 Songs

ELECTRONIC: Dance, ELECTRONIC: Industrial Details: This is the 6th full length album from Chainsaw Weasel and the most emotionally charged to date! It starts with a trance like Ibiza mix inspired by a all night rave at the TU Club in Taipei Taiwan and jumps into the spoken word industrial montage of Revelations. Tragedy features the 911 tapes of both Columbine and United 591. Running the Square was written in Beijing while...you got it running Tienemen Square. Bring it On is a hardcore industrial piece that features some killer industrial machinery and beats while Dead to Rights is a slow methodical soundscape written in the throws of anguish and loss. Moving in to Tiny Scroll which features the track featured on the Crank Spiv 7 Compilation brings you to a powerful moving hard dance track that will challenge your subwoofers and shake your foundations. You Must Obey is another menacing industrial track that features a range of man and machine beats that will leave you panting. Sunny Tree is a meditative track written for a wonderful friend in Shanghai that deserves the very best life has to offer....The Final Track....is just that....
