Nostalgic but offering something new, The David Patrone Quartet is reminiscent of an era's swanky style that preceded most of our births. Patrone adds a modern panache to the musical compositions that brought America through the '30s, '40s, '50s and '60s. 11 MP3 Songs JAZZ: Jazz Vocals, JAZZ: Traditional Jazz Combo Details: The David Patrone Quartet is the #1 Southern California-based Jazz Quartet featuring David Patrone and specializing in popular Jazz Standards of the 30's, 40's, 50's and 60's. Known for his Rat Pack demeanor and engaging stage presence, David reaches the audience with an attitude and style that garners attention both during and between songs. The David Patrone Quintet presents classic vocal Jazz standards in the style of Frank Sinatra, Tony Bennett, Louis Armstrong, Ella Fitzgerald, Billie Holiday, Harry Connick Jr. and others from our "American Songbook". On this album David has band configurations from four musicians up to 10. They transition between swingin' numbers and melancholy ballads that capture the attention of the entire room with straight-ahead good stuff that takes you back to a time when live music was imperative; hats were checked, dames were respected and booze wasn't such a bad word.
