A Kiwi solo artist with the catchiest acoustic based tunes after the likes of Jack Johnson Neil Finn you'll find downunder. 11 MP3 Songs EASY LISTENING: Background Music, POP: Today's Top 40 Details: Edwin Derricutt - lead singer and songwriter from Kiwi band FELT - has been busy in the year since the disbanding of the Tui award-nominated group. He has launched his solo career which brings his wide travels and past musical journeys together to create a sound that is honest, passionate and well... highly catchy, to say the least. "This move into being a solo artist is really about being honest and down-to-earth about who and what I am," says Edwin. "I'm a songwriter who simply can't stop writing his songs, and I'll sing them to whoever will listen." Edwin's debut solo album 'Symmetry' hits retailers in NZ March 06 and the limited edition release is only available here at CDBaby across the globe. Just 100 of these copies will ever be made. The yellow cover official national release will be available here shortly. For a journey through an acoustic landscape of guitars, percussion and strings this album hits the spot just nicely with late night, a soft red and a lazy tomorrow morning . Its a dynamic collection with a sonic variance which escapes many acoustic albums. Many of the songs itch for mainstream radio play and suggest full arrangement versions for the a stunning live show. The likes of Jack Johnson, James Blunt, Coldplay and local influences Niel Tim Finn have added to the songwriting flavours evident here. A must have for 2006.
