

Mp3 Geno K - The Human Geno Project

[DOWNLOAD HERE](#)

Radiohead meets Foo-Fighters raises a musical love child with Tom Waits as the Babysitter. 10 MP3 Songs ROCK: Modern Rock, POP: Power Pop Details: Biography "The human Geno Project offers solid, modern Rocksongs somewhere between U2, to the Foo Fighters, Beck and the Hives. Songs such as Where You Belong , Pass on ME and soft ball prove which one of Geno K in the future will possibly still hear" - Alooga, Germany (translated from German) "The sound is closer to Radiohead and Nirvana (especially the vocals) with a good production for an independent release. The similarities with Curt Kobain are many but Geno's music sure has a place in Alternative rock stations, it has feeling and strength" -Skylight Magazine, Greece "Wonderful melody, suffering voices (yes, it agrees, Geno K. sounds like Kurt Cobain), melancholy texts. That writes itself so simply... melancholy texts.. It are but the Lyrics of Geno K actual - poetic and yet clear, without Schnrkel and yet touching. The entire album is arrive throughout, the change of masculine and feminine singers brings an addition that lets closed appear the album change rich and nevertheless in itself. A special song to emphasize or one allude-type to give would be opposite unfair the album, because it must be heard as complete work." -Crossover - Network for Youth Culture, Germany America, You're Next. Geno K, aka Eugene Kim, is a 5-year veteran of the NYC music scene. As bassist for Shaker, Stalone the Sleavze (all one band), he has performed at venues such as The Bitter End, Mercury Lounge, and Bowery Ballroom, as well as countless other clubs. Geno also founded and hosted an Open Mic Showcase at the popular DTUT's Caf on the Upper East Side of Manhattan for 2 years. Relocating back to his hometown, Albany, NY, Geno K finished a 2-year long solo project with a number of musician friends. Conveniently titled, The Human Geno Project, the album is the culmination of songs that, similar to it's like named predecessor, is a multi-disciplinary approach to achieving an understanding of the human makeup, wrapped in 2-4 minute pop packages. .
