Originally from Pittsburgh, PA she moved to Florida as a teenager. Not really sure at that time what she would do after high school, she dreamed of being a singer. It took many years for her to find her way into that dream. She started out as a lead singer in a band, but without a decent agent, that didnt work out very well. So she went into many different fields trying to find her niche. It wasnt until 89/90 that she got back in the business via the karaoke craze. She hosted shows for about 5 years before deciding that she could do better. So she started doing her own cabaret style shows. Over the years shes honed her talent into a one-woman show that keeps you wanting to hear more. Her repertoire ranges from Patsy Cline to Celine Dion, Frank Sinatra to Garth Brooks, country to oldies, ballads to Broadway. She has been the opening act for such groups as Charlie Thomas Drifters, The Coasters, The Platters and more. Members of these groups have stated that she is not just a singer.shes an entertainer. In the last few years she has also become a songwriter, and has just released her first originals CD entitled Making Memories. Its a compilation of many styles of music, from love songs to soft rock to praise and even a novelty song. Sit back and enjoy the vocal stylings of Ginger!
