Emotional songs which speak to the great importance of having that special someone you can dedicate your life to. 7 MP3 Songs EASY LISTENING: Love Songs, ROCK: Acoustic Details: Almanian Review By: Kevin Brady Staff Writer for the Alma College Almanian First, "Songfest", and now the production of his first CD entitled Fly Away - in a matter of weeks, John Kruse has taken the Alma College community by storm, impressing his peers with his musical talent and "Songfest". Do not expect any let down as Kruse has produced his first album. There are seven songs on the album, all of which refer to love and the many ways it can comfort and hurt. Each song has a slow tempo, guitar based rhythm, with Kruse providing the vocals. He wrote all of the tracks for his album. The major themes revolved around the loyalty, dedication, and fragility love can have on one person. In each song, Kruse speaks to "you," someone who has touched his life in a way no one else has done. Kruse can be compared to a milder version of John Mayer and Dave Matthews. Even though he does not speak of issues of finding that special someone, it concentrates on the importance of having a person you can dedicate a large portion of your life to. The song that exemplifies this the most is "The Penny Song". This song talks about the most fragile part of a person, their heart. A similar song, "Her Eyes", focuses on why someone would give another so much, their love, and every emotion they have to another person. Kruse expresses deep emotions about a specific person, and why she is the one he desires and "what his love for her is all about." The last song on the album is a tribute to his fellow graduating class of 2002 from Bullock Creek High School. It entails the memories of high school and the end of a road well traveled. This song provides a perfect example of what seniors know and get use to over time. How many seniors know what they are really going to do after graduation? We are so use to Alma College because it is all we know at the moment. Kruse makes this very point for any senior. However, the journey for this young man is just starting. On November 28th,

Kruse's album will be released. He thanks his family, friends, girlfriend, and God. A large part of the focus for this album is the listener. Kruse is just beginning his journey for a long and successful music career. Alma College and everyone else should welcome his album with open arms because his career is on the rise. It is not everyday that this college or any college has someone as talented as Kruse. His love is music and he is capturing a dream that has been a part of his whole life. Kruse is an inspiration to all of us for never letting go of dreams and true life goals.
