Guitar Rock with several flavors. Original American sounds tempered with heart, soul and passion. Somewhere between Rock and pop, this is the real thing. If Hendrix met Santana and Bob Marley in B.B.Kings back yard while listening to Beethoven.... 12 MP3 Songs ROCK: Modern Rock, METAL: Doom/Stoner Metal Details: The Trek through Time is relative to the individual and varies with the experiences of the many. Music traverses time and sometimes defines the moment and extends it to infinity and beyond. Mason has delved into music from the primitive drum to the software and the click of a mouse. All genres are filtered through Mason's mind and made available to the listener and the viewer to assimilate and disseminate. Through conversations and consultations with the Masters of the way of sounds, he brings past and present together in a blend of excitement and passion. The future of audio and aural emanations is in the ear of the beholder. From Roots rock Reggae to Hard Rock, to Acoustic styles, to Instrumentalist and Software Manipulator, and dean of Electronica, Mason spans them all. The music is always surprising, exciting and unforgettable. The performances range from one end of the emotional spectrum to the other. Magic happens when the audience the venue and the performer are one. Mason may well be in your area and appearing in a venue down the street from you. Take the time to listen and learn about the sound and the path that weaves through our lives, and brings stimulation. Many faces and many years, many sounds abound. Sometimes the invisible becomes visible, and sounds enchant eternally.
