Hell-noise Rock. 12 MP3 Songs ROCK: Modern Rock, ROCK: Noise Details: Sassy Potato is Munkey Juice's 5th album. Sassy is a lot more aggressive than MJ's previous albums. The album features the tune "(Like A) Rolling Munkey", which features lyrics spliced together using Rolling Stones songs. Formed by the Heise brothers in 1995, Munkey Juice is a rock band for the hard of hearing. God himself once said this of the Juice, "Rock never tasted so good". Munkey Juice has been through their fair share of drummers in the spirit of Spinal Tap (please send your applications to the email below). Recently, Munkey Juice acquired the talents of Dan Kaping on the skins until a permanent drummer can be found. Dan contributes an extra notch of sexiness to the band, which brings the band's status of rock stars to rock GODS! They have released six full length albums, and two EP's. They are currently working on a double album featuring the talents of Minneapolis rock band Roscoe. Nelson Heise takes care of most the singing, strumming, sometimes drumming, and the dictating in the band. Robert "Bubba" Heise does the slappin', tappin', and occasionally rappin'. Most importantly, Bubba is the looks and PR guy. Dan bangs the backbeats. To share your stories with MJ, just write an email and they will send their best regards. Munkey Juice 640 Oakridge Rd.
