'Revolver/Rubber Soul' Beatles Rock 'n' Roll with a Gospel influence and a 'shotgun willie' country tinge.

12 MP3 Songs POP: Beatles-pop, POP: 70's Pop Details: About pawnshopkings The two of us are brothers making music that we find meaningful. We're pretty different, though, which makes for some potentially awkward, yet compelling, moments on stage. here's what the good people over at XPR compiled to say about us: PawnShop kings We want to be known for playing music that comes from deeper parts of ourselves music that allows people to hear things that also make sense to them. Musically, I guess I would say we cant avoid the genres of gospel, country, folk, pop and rock. It all just comes out in different places. Scott Owen, one of two brothers that make up the PawnShop kings, pauses for a moment, possibly realizing the overwhelming scale of the bands intentions. Of course, all bands want to be relevant and memorable. Were no different, but I guess we are striving to create our music alongside what we see as the importance of relationships. And with the very real possibility that we might kill each other at any given moment over a remarkably trivial matter, injects the younger Joel. What is more relevant than family? If the eternal conflict of brotherhood is the Pawnshop kings most obvious trait, a soulful blending of musical styles is its calling card. The result of a 10-year musical partnership with formative, familial experiences in the South, the PSk sound stirs together many of the musical influences the brothers shared with one another growing up on the beach in California. Early on, Scott would hear all this great music first, like the Beatles and Led Zeppelin, Bob Dylan, and then around college he was listening to the more obscure indie bands of the time like Toad the Wet Sprocket, Joel recalls. Then in the later 90s, I got into everything Brit pop and, in turn, played the Radiohead, Coldplay and Richard Ashcroft I was listening to for him. Scott and Joel create music that is equal parts rock and folk, with an obvious nod to the musical sensibilities of the Beatles and the melodic accessibility of artists

like Bob Marley and the Staples Singers. The brothers spent their childhood years in Texas and on their familys plantation just outside Memphis, and their early exposure to Southern black churches during that period fostered a deeper lyrical significance. We dont sing about getting drunk and laid so we probably wont relate to the fan looking for that sort of immediacy, added Joel. I tend to think the music were playing has a longer shelf life than that. To me, our sound reflects back to the roots of American music but adds a more contemporary edge that those particular early styles lacked to my young ears. Clearly, PawnShop kings musical identity defies easy description and not only because of the amalgamation of styles. The lowercase k in the bands name suggests a church-borne intentionality that keeps the brothers as friends and from straying too far from faith and family. Weve always related to the second-chance concept of a pawnshop where everyone has the opportunity to start fresh and be new again, remarks Scott. Our music and the ability to build upon the gospel and country roots of our childhood plays as a voice to that spirit of reinvention. Today, both brothers live in Orange County, Calif., near enough to the industry and inspiration of L.A. but close to family and the ocean, providing the balance that gives their music its distinctiveness. Marc Ford of the Black Crowes and producer of the PSk debut album, Locksley, and Rob Fraboni, co-producer of The Last Waltz and Grammy-winning engineer to Keith Richards, Bob Dylan and numerous others, helped take the brothers songs and ideas to a new level of professionalism and authenticity. It is pretty humbling to collaborate with people who have accomplished so much in this industry and watch as they invest in your material, Scott reflects. Actually, we found ourselves acquiescing far more than either of us had planned, Joel added. There was just too much collective experience not to surrender completely. With authenticity like that, dont be surprised if the PawnShop kings reach a new level of unintended royalty.
