

Optimization With Pde Constraints

[DOWNLOAD HERE](#)

1;Preface;6 1.1;Acknowledgements;7 2;Contents;9 3;Analytical Background and Optimality Theory;12
3.1;Introduction and Examples;12 3.1.1;Introduction;12 3.1.2;Examples for Optimization Problems with
PDEs;15 3.1.3;Optimization of a Stationary Heating Process;16 3.1.3.1;Boundary Control;16
3.1.3.2;Boundary Control with Radiation Boundary;17 3.1.3.3;Distributed Control;18 3.1.3.4;Problems
with State Constraints;18 3.1.4;Optimization of an Unsteady Heating Processes;18 3.1.4.1;Boundary
Control;19 3.1.5;Optimal Design;19 3.2;Linear Functional Analysis and Sobolev Spaces;20 3.2.1;Banach
and Hilbert Spaces;21 3.2.1.1;Basic Definitions;21 3.2.1.2;Linear Operators and Dual Space;22
3.2.2;Sobolev Spaces;24 3.2.2.1;Lebesgue Spaces;24 3.2.2.2;Lebesgue Measurable Functions and
Lebesgue Integral;24 3.2.2.3;Definition of Lebesgue Spaces;26 3.2.2.4;Density Results and Convergence
Theorems;28 3.2.2.5;Weak Derivatives;29 3.2.2.6;Regular Domains and Integration by Parts;29
3.2.2.7;Sobolev Spaces;30 3.2.2.8;Poincar's Inequality;32 3.2.2.9;Sobolev Imbedding Theorem;33
3.2.2.10;The Dual Space H^{-1} of H^0_1 ;34 3.2.3;Weak Convergence;35 3.3;Weak Solutions of Elliptic and
Parabolic PDEs;37 3.3.1;Weak Solutions of Elliptic PDEs;37 3.3.1.1;Weak solutions of the Poisson
equation;37 3.3.1.2;Dirichlet Boundary Conditions;37 3.3.1.3;Boundary Conditions of Robin Type;41
3.3.1.4;Weak Solutions of Uniformly Elliptic Equations;43 3.3.1.5;An Existence and Uniqueness Result for
Semilinear Elliptic Equations;44 3.3.1.6;Regularity Results;45 3.3.1.7;Interior Regularity;45
3.3.1.8;Boundary Regularity;46 3.3.2;Weak Solutions of Parabolic PDEs;47 3.3.2.1;Uniformly Parabolic
Equations;48 3.3.2.2;Bochner Spaces;48 3.3.2.3;Weak Solutions of Uniformly Parabolic Equations;51
3.3.2.4;Weak Solutions;51 3.3.2.5;Existence and Uniqueness of Weak Solutions;54 3.3.2.6;Abstract
Parabolic Evolution Problem;54 3.3.2.7;Abstract Parabolic Evolution Problem, Equivalent Form;55
3.3.2.8;Energy Estimate and Uniqueness Result;55 3.3.2.9;Existence Result by Galerkin
Approximation;56 3.3.2.10;Operator Formulation;58 3.3.2.11;Regularity Results;59 3.3.2.12;An Existence
and Uniqueness Result for Semilinear Parabolic Equations;60 3.4;Gateaux- and Frchet Differentiability;61
3.4.1;Basic Definitions;61 3.4.2;Implicit Function Theorem;63 3.5;Existence of Optimal Controls;63
3.5.1;Existence Result for a General Linear-Quadratic Problem;63 3.5.2;Existence Results for Nonlinear

Problems;65 3.5.3;Applications;67 3.5.3.1;Distributed Control of Elliptic Equations;67 3.5.3.2;Boundary Control of Semilinear Elliptic Equations;68 3.6;Reduced Problem, Sensitivities and Adjoint;68 3.6.1;Sensitivity Approach;69 3.6.2;Adjoint Approach;70 3.6.3;Application to a Linear-Quadratic Optimal Control Problem;71 3.6.4;A Lagrangian-Based View of the Adjoint Approach;74 3.6.5;Second Derivatives;75 3.7;Optimality Conditions;76 3.7.1;Optimality Conditions for Simply Constrained Problems;76 3.7.2;Optimality Conditions for Control-Constrained Problems;81 3.7.2.1;A General First Order Optimality Condition;82 3.7.2.2;Necessary First Order Optimality Conditions;83 3.7.2.3;Applications;84 3.7.2.4;General Linear-Quadratic Problem;84 3.7.2.5;Distributed Control of Elliptic Equations;85 3.7.2.6;Distributed Control of Semilinear Elliptic Equations;87 3.7.2.7;Boundary Control of Parabolic Equations;89 3.7.3;Optimality Conditions for Problems with General Constraints;91 3.7.3.1;A Basic First Order Optimality Condition;92 3.7.3.2;Constraint Qualification and Robinson's Regularity Condition;93 3.7.3.3;Karush-Kuhn-Tucker Conditions;94 3.7.3.4;Application to PDE-Constrained Optimization;95 3.7.3.5;Applications;97 3.7.3.6;Elliptic Problem with State Constraints;97 3.8;Optimal Control of Instationary Incompressible Navier-Stokes Flow;99 3.8.1;Functional Analytic Setting;100 3.8.2;Analysis of the Flow Control Problem;102 3.8.3;Reduced Optimal Control Pr EAN/ISBN : 9781402088391 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Lowen, R. - Laubenbacher, R. - Stevens, A. - Hinze, Michael - Pinnau, Rene - Ulbrich, Michael
