This book, organised in an extremely-user friendly manner, equips the landscape architect with all of the required knowledge in business and law. It is of great value to Landscape architects throughout their academic and professional life. Landscape architecture students will find this book vital to their education and it will also be useful for landscape students on non-professional programmes who wish to understand the regulatory and planning backgrounds to their studies and for students on technical-type landscape programmes. It is compulsory reading for everyone preparing for the new Pathway to Chartership examination. Not only will it help you pass the exam but you will, along with the thousands of fully-qualified landscape architects in the UK, find it an extremely time-saving reference in your busy working lives.
