

Transforming Places: Lessons From Appalachia

[DOWNLOAD HERE](#)

In this era of globalization's ruthless deracination, place attachments have become increasingly salient in collective mobilizations across the spectrum of politics. Like place-based activists, Appalachians are contesting economic injustice, environmental degradation, and the anti-democratic power of elites. This collection of seventeen original essays explores this wide range of oppositional politics, querying its successes, limitations, and impacts. The editors' critical introduction and conclusion integrate theories of place and space with analyses of organizations and events discussed by

contributors. Contributors are Fran Ansley, Yaira Andrea Arias Soto, Dwight B. Billings, M.
