It Is Time To Change The Way You're Doing Business Online! Every marketer knows that building a optin mail list is the single most important thing you must do when doing business online, as you are able to market to it over and over again. We all know how it works: you build a page to which you add an opt-in form and you start promoting. Visitors who are interested register to get the info/product/service you promise to deliver, the others just zap away... What A Waste! Think about it...once a visitor clicks off your page, they're gone forever. Since they didn't leave their email address, there's no way you can contact them again. . How many times do you think that happens to you and your web pages? Probably more frequently than you would like to know...! It's time for you to bump up your marketing business and put it into overdrive. Introducing: Interactive Squeeze Pages Easily transform your web copy into an interactive sales page that automatically rewrites itself based on a visitor's response to a question you provide. This tool works like a fill-in-the-blanks exercise and there's absolutely NO PROGRAMMING KNOWLEDGE required. If you know how to copy & paste, you can have your own interactive squeeze pages online in no-time! They don't come any easier than this! (Step-by-step user guide included) Tags: plr, private label
