

Mp3 Fr. Andrew Rogers - Cealo - Music For Meditation

[DOWNLOAD HERE](#)

Ethereal, relaxing, spontaneous orchestral keyboard improvisations. Effortlessly open to the Divine within.

5 MP3 Songs NEW AGE: Meditation, NEW AGE: Healing Details: In the summer of 2003 His Holiness Gayuna Cealo, a Buddhist monk, was in Lansing, Michigan. He invited Andrew to play music during a public meditation. The music so transported Cealo, that he asked Andrew to create two meditation CDs for the Foundation; this CD is the first. He was invited to perform at the Foundations Heart Expo in Japan in February 04 as the newest member of the Foundations Global Harmony Band and, in September 04, completed a tour of Japan with His Holiness. From Fr. Andrew - from the liner notes: If you force open a budding flower, the petals bend and break. Give it the right soil, water, and nutrients, instead, and the flower will naturally open to its full beauty. Cealo knows the right combination of those ingredients, coupled with encouragement, simplicity, love, compassion, peacefulness, awareness and wisdom to help anyone open to their full beauty. I am humbled and thrilled that this music will be one of those ingredients in his work as I had no idea what I would play for this meditation before I actually sat down and began playing. I did not create this work, but was happy I could deliver this through me to him and to you. Many Blessings.! All proceeds from the sale of this recording go to Cealo's Foundation for Global Harmony USA (501C3) to support his charitable activities for the children of SE Asia - orphanages, hospitals, vocational schools, etc. Barbara Keefe, Lightengale Music: "Andrew Rogers' music is a wonderful surprise. His presence is reminiscent of a gentle sea that secrets the power of its waves beneath. Angels and Masters guide Andrew as he allows the music to flow. Deep and moving, relaxing and healing, the music empowers and enlivens mind, body, and soul". John Davis, The Coptic Fellowship "His musical talents have received numerous accolades from our seminar attendees." By Greg Ozimek: PhenomeNEWS How is it we grow "worthy" local artists? Maybe it's the water? Or the air? Fenton, Michigan, resident Andrew

Rogers is an organist, composer, and has at least two feet in other spiritual matters. Rogers has a 25-year interest and appreciation in using music as a tool for healing and the transformation of consciousness. He started working with pre-recorded music and studied its effects on individuals and groups beginning in the early 1970's. Later, he began channeling music for both individuals and groups as a catalyst for spiritual attunement.
