I've always wanted to express myself through music because music is healing. We all love our mothers but you never fully appreciate the love our mothers have for us. My brother,sister and I have seen the love and support from our mother to us at such a difficult time. As a whole I hope that mothers and children can come together to be there for one another in their time of need. This song is dedicated to not only my mother but to all mothers or mother figures around the world who are doing the best they can in taking part in a child's life. Love, Leesi
