Pop/folk inspirational/spiritual music with a message. 12 MP3 Songs POP: Folky Pop, GOSPEL: Contemporary Gospel Details: After working for two long years, Lew Doty has finally released his eagerly awaited second CD, Wind and Water. His fans jumped on the bandwagon quickly ordering CDs in bulk and giving them as gifts. Wind and Water is a gorgeous mix of Lew Doty songs which he and his producer, Vinnie Zummo, have blended into a cohesive and mature CD. Lew's audience has been clammoring for a recording of Ten Thousand Angels and it is the lead-off song of the CD. One fan said upon hearing it, "Even if it was the only song on the CD, it would be enough. That song brings me to a feeling of unconditional love quicker than anything I can imagine." In typical Doty fashion, the mixture of styles offered on this CD makes it difficult to categorize. There are meditative offerings, a blues number, a rock and roll powerhouse, a jazzy ballad, all delivering Lew's message of Spirit. The thrust of this music is that we are all safe, whole and wrapped in the love of God. This music reminds us of the divine in our everyday life, and lifts us higher and higher.
