She has also shared the stage with Columbia Records artist Arrested Development, whose manager, Bart Phillips, said to her, "I want to keep in touch with you and your career." Peanut can take command of the stage from behind the drum kit, or as a front person. Her sultry voice will enthrall you, as you find yourself swaying to her sassy rhythmic beats. While on tour in support of her CD debut, she is quickly moving up from small clubs to larger venues, and festivals. Peanut's recipe for success is that she has stayed focused and true to her style, and individuality as a musician.
