Financial markets (AKI) is a market in which place the purchase and sale of valuable papers or other short-term, medium-term and long-term. Where the money supply to meet the needs of others on currency. This book focus on the fact that financial market is the a bridge between the supply and demand of capital in the economy, thus creating favorable conditions for idle capital to where a lack of funds to meet the needs of economic development. This book explains the financial market through 3 following aspects: Financial markets form the buying and selling prices of shares, bonds, debentures, short-term debt, long-term form the borrowing interest rate, interest rates, short rate, medium and long term. Financial markets function efficiently through financial intermediaries (securities companies, investment funds, banks, etc.) Financial market participants is the supply and demand of social capital in economic subjects such as government, business, family ... Participants in the financial market is representative of the legal entity or natural person for the supply of capital for financial market participants, mainly commercial banks, finance companies, investment company private insurance companies, the credit fund.
