

The Saddam Tapes

[DOWNLOAD HERE](#)

During the 2003 war that ended Saddam Hussein's regime, coalition forces captured thousands of hours of secret recordings of meetings, phone calls and conferences. Originally prepared by the Institute for Defense Analyses for the Office of the Under Secretary of Defense for Policy, this study presents annotated transcripts of Iraqi audio recordings of meetings between Saddam Hussein and his inner circle. This study will provide researchers with important insights into the inner-workings of the regime and, it is hoped, the nature of authoritarian regimes more generally. How did Saddam manage the Machiavellian world he created? How did he react to the signals and actions of the international community on matters of war and peace? Was there a difference between the public and the private Saddam on critical matters of state? A close examination of this material in the context of events and other available evidence will address these and other questions.
