ambient, chillout, downtempo, soulful vocals, night music 10 MP3 Songs ELECTRONIC: Down Tempo, ELECTRONIC: Ambient Show all album songs: Pleasure Songs Details: Doug Wilkinson came from the fast-paced world of advertising in Chicago. He made his mark in the industry and decided to pursue ambient music with a fresh, new approach. Doug combines traditional, acoustic instruments with computer-generated samples and surprises us with thought-provoking, soulful vocals throughout a lush, musical journey. Altogether, it sounds like a movie underscore with a gentle "groove." Not only is Doug a skilled composer, he's also an accomplished pianist, which is evident throughout his compositions. In his own words, he comments, "Music can be like living in a big city. It is possible for several 'styles' or cultures to come together and collectively yield a whole new sound." In his latest release, "Pleasure," we can feel that crossroads or blending of several musical styles that Doug is striving to share with us. He has, indeed, hit on something profound and powerful.
