Post-Modern pop with the influences of classic pop- rock,hip-hop,folk rock and a little of everything else thrown in. 11 MP3 Songs POP: California Pop, ELECTRONIC: Pop Crossover Details: Gross National Happiness is a band with three different song writers and they all sing their own songs. Which means we are a band with three singers. Unusual perhaps,but it works. We contribute to each others music on a scale that is very different than any other band.In other words,we help each other out when we're writting. Bret will write with a Neil Young,Tom Petty,U2 influence. Jazbo writes from a more traditional pop background with the influences ranging from The Beatles to the Velet Underground to some of the ideas of electronica. Andy writes from a lot of the same influences as the other two but with the occassional use of Hip-Hop beats. All of this somehow manages to combine itself into one beautiful melodic collection of songs!
