Deep,honest,and powerfully catchy rock.... 12 MP3 Songs ROCK: Progressive Rock, METAL: Heavy Metal Details: Death and decay Thank you for being patient. Here is my latest release. It takes twelve journeys through the dark places we all have to go thru inevitably. I hope these songs are the beacons of darkness I want them to be. No need to be afraid, it's only sound waves lapping at the shore of your mind. When it's over you can reflect on the memories and decide if it's worth another ride. Thanks to all the new friends I've made since my first release(Nobody Wins!!!!). Robert Cetl- PRELUDIUM(CZECH REPUBLIC) Jason Marine-ALLICIT(Temple,TX) Jay Condiotti and Nadia Fay-DIRTY CHILDREN(LA,CA) Michael Sullivan-(Fresh Tuneage.com) John Foxworthy-(Garage Radio.com) And all the friends and family that stick beside me everyday. God and most of all, you reading this right now. Well, this makes three cds put out over about a years worth of time. I don't think that that's in anyway too much. I took more time to do this third one and will take even more time to do whatever comes next. Doug Gross(Associated Press), did a very informative article I found in the Victoria Advocate. It gives a good glimpse of the music industry past,present, and possibly the future of. There are a few net links with the report also. If you find the article and not the links feel free to E-mail me and I can get you the links. Here comes a much hotter TEXAS SUMMER. The environment is really screwed up. Global warming is a fact. We don't understand the Arabs as well as we should. I don't vote for presidents, I believe in America as a people. The Concept Anything that exist can DIE and DECAY in any multitude of ways. For some things, it's just a falling apart of the physical. For other things it's the unraveling of the essence of being. Disintegration can happen on any level and is worst when not expected. It takes a long horrible fall off the ladder, and a fierce soul consuming struggle in the mud, before we realize we just need to give up. We discover at some point that it's better to go fetal and comatose than to fight what our life has become. At some unknown point in the

future, the ladder will still be there waiting for us. We won't know it is until we are truthfully ready to start climbing again. To be in the presence of genius can be dangerous to our own intellect. When confronted by some one or some thing imbued with greater intelligence than our own, the result is usually the DEATH of our feelings of safety and sometimes even our confidence. After all, here is some one or some thing with the ability to do everything we do only better. The result can be a DECAY of our own personality. The DEATH of a relationship can linger for a lifetime. The best we can hope for is to be remembered by those we are no longer in touch with. Across a lifetime the memories on both sides of the separation can DECAY. Nothing can take the place of the feelings we have when we're young. As long as we hold on to that "invincibility" our confidence in ourselves will never DECAY. Those who've died defending this country, have passed in a multitude of ways. The loved ones left behind were not there to know what the passed on felt. The DEATH in defense of what you believe in and for those you love is a proud DEATH to die. The memories of our fallen heroes will never DECAY! From somewhere on a battlefield far, far away, a soldier lay next to DEATH. With his final breath, he breathes a phrase onto the wind. In his heart he feels the angels carry it halfway around the world to the ears of his widow. At sometime in the future, he coalesces next to her in time to save her from the DECAY of her own sanity. Love should last forever. Unfortunately,,,,,. On any given day love can walk away from us and never return. To see something, or, some one, so beautiful that it stops you in your tracks and forces feelings of wanting thru your mind is a torturous kind of DEATH. You know you'll never have it, but, for the moment you crave it so badly. Once it's gone, however, the memories do DECAY, eventually. Life is a STAMPEDE. Don't ever loose your step, if you can help it! Those SEVEN DEADLY SINS. What would life be like without them? Really. Some memories stand out like nothing else can. Those can cause our minds to DECAY into something we never wanted to be in the first place. That's an existence hard to get out of. When DEATH takes me, watch what you say. Watch what you say, but not who you say it to. I will have went through my life respecting people as much as I can. Even in DEATH I will expect the same from all of those who knew me. Rest assured, I'M NOT LEAVING, 'TIL MY BODY'S IN THE GROUND!!!! As for those who never knew me, I'm nothing special waiting to be found. I'm just me. I need to know if any of you reading this are from Victoria,TX. If so, we need to talk!!!!!!!!!!!!!! Music is here, I can feel it, it needs to happen!!!! GET IN TOUCH!!!! Look, I'm just 40 I'm not dead or dying!!!! This disc is about death and decay. not about death as some people like to glorify it. Just as something that occurs wether we

want it to or not. It's inevitable! How we react to it is what sets us apart from the animals. As it happens, they don't react to it. They react after it has occurred. We react to it as it happens and after. Check out the new tube thingy "Musicplustv" It's a west coast thing. Should be good for all. Website is up and running(legasyssongs.com) Try it. Hmmmm, I can see I'm stagnating here. I hope you can hang on for a while. I'm gonna really toast your noodles next time! I'm working on my next project as you read this. I got two tunes on AOG MEDIA Presents, Compilation Volume 5. Check out legasyssongs for more info. God knows I don't get here as often as I'd like. But here I am again!!! Too much going on right now to mention! Just be assured,,,,,COMING SOON!!!! "Cupid Shoots To Kill", got played on 106.9, the local rock station here in Victoria,TX. My thanks go to Adam West, the DJ, for mentioning my entire bio after the song finished!!!!
