

Mp3 Ken Nunoo - Energies Of Mind Vol. 1

[DOWNLOAD HERE](#)

A CD based on the energies of sound, light and the mind. 10 MP3 Songs EASY LISTENING: Mood Music, ELECTRONIC: Pop Crossover Details: ENERGIES OF MIND VOL. 1 This album is the companion cd for my book titled "THE BOOKS OF SOUND,LIGHT MIND Vol. 1. This book is a combination of 3 books, THE BOOK OF SOUND, THE BOOK OF LIGHT, THE BOOK OF MIND. This book is currently under publication and will be released soon. The text below is from the BOOK OF SOUND Behind the fabric of everything formed is energy and energies are in 3 basic groups of the energies of Sound, the energies of Light, and the energies of Mind. Out of the energies of sound all matter from gas to solids have been formed. Out of the energies of light we obtain color, heat, light and all areas of our sciences. Within sound there is mind and within light there is mind. Mind is the source from which both sound and light came from. Behind the fabric of creation are the letters of the alphabets which are charged with the energies. For in the beginning was the WORD and the WORD was with God and the WORD is God. The WORD is the energies of sound which are contained within the letters of creation. For God spoke and there was light. Out of the energies of sound came forth light. The human race and all that has been formed in the physical universe has sound energy as their basic form of energy. The analogy of this form of energy can be even found in the atom. The nucleus is the container of sound for it is the core, the electron the container of light and the proton the container of mind. Where there is energy of sound, whether gas or solid mater even an atom, the energies of light and mind are also present. Where there is energy of light, the energies of sound and mind are also present automatically. Where there is energy of mind, the energies of sound and light are also present automatically. FROM THE BOOK OF SOUND, WITHIN THE BOOKS OF SOUND,LIGHT MIND vol. 1 BY KEN NUNOO Note: This album can be downloaded at: Itunes.com
