Powder is a 20 year old emcee holding down the middle of Wyoming. Powder takes you to a different level of his thought process and of his life with every track. Powder is also very hard working and dedicated to his future. He is involved with every aspect of his career. With shows coming in like crazy and college tours in plan, you can plan to see Powder near you sometime soon! Powder was born Adam C. Raymond on April 18th, 1984, in South Dakota. He was raised, for the most part, in Wyoming by his single mother and grandmother. Since Powder was very young he has always loved music. Powder loves and respects music for the power it has. Powder started writing music at the age of 14, while in a juvenile treatment

center. He fell in love with hip/hop immediately. Since then, at the age of 17, he recorded his 1st demo "Just The Beginning". Also at the age of 17 he recorded his latest "Verballistic Arsonist". He signed with Bliss Artist Management and Fresh Flava Entertainment soon after "Just The Beginning" was finished. They immediately saw Powder's potential and dedication to his future in the music industry. Powder lives for music, and he will never stop making it. Powder is 150 dedicated to his future in this industry. He always puts his best into what he does. To Powder the fact that he is coming out of Wyoming means nothing. He puts all his time and effort into what he does to make it the best, regardless of his location. To Powder location means about as much as skin tone. Talent is talent, if you have it then you should use it!
