Straight ahead, mainstream jazz, in the style of 1950's-1960's Classic Blue Note Jazz Recordings 9 MP3 Songs JAZZ: Bebop, JAZZ: Traditional Jazz Combo Details: The Brad Bietry Jazz group consists of four talented musicians in Colorado Springs, Colorado. They are Geoff Torres (Tenor and Soprano Saxophone), J.R. Erb (Bass), Stefan Flores (Drums), and Brad Bietry (Piano). Brad Bietry started the group in January 2005 after getting a steady Friday night jazz gig at The Coffee Warehouse in downtown Colorado Springs. Brad and Geoff are both members of the USAF Academy Band playing in the Falconiers Jazz Ensemble. JR Erb is a veteran of the Air Force Band career field. JR is currently assigned to the Air Force Academy as a Military Training Instructor. Stefan Flores is one of the areas most sought after drummers. He's been playing professionally for many years in many different groups of all genres of music. After many requests for a CD from the loyal fans that come weekly to hear the group at The Coffee Warehouse, they decided to record a selection of tunes that they play regularly that the people enjoy. This CD consists of 5 standards, 1 bebop jazz classic, and 3 original jazz tunes written by Brad Bietry. The CD was recorded with a live studio quality reminiscent of the classic 1950s and 60s Blue Note Recordings.

- "Foggy Day" was written by George and Ira Gershwin. It is arranged in a tasty med up tempo swing.

"Bouncing with Bud" was a tune written by one of Brad's biggest influence, the great jazz

pianist/composer Bud Powell. "Bye Bye Blackbird" is an old standard that was recorded by many jazz

musicians. This arrangement was inspired by the Miles Davis version from the 1950's. "Soul Man Jive" is
an original funky soul jazz type of tune in the style of Cannonball Adderly's and Herbie Hancock's classic

funky tunes recorded in the 1960's. "Blues-Not" is another straight-ahead jazz original tune of Brad's that

is sort of like a blues, but it's not. So Brad appropriately called it "Blues-Not". "Our Love Is Here To Stay" is a classic tune written by George and Ira Gerswhin. This version features the wonderful verse which is not heard that often played by Geoff on Tenor, and Brad on piano. It is then followed by the recognizable chorus featured as a duet between Geoff on Tenor Sax, and JR Erb on Bass for 1/2 a chorus, then the whole group kicks in. "Memories Of Joe" was a tune that Brad wrote as a tribute to the great jazz tenor saxophonist Joe Henderson. Joe was from Brad's hometown Lima, Ohio. Brad's piano teacher growing up in Lima, Don Hurless, was a friend of Joe's growing up in the 1940s. They transcribed Charlie Parker tunes and solos together and would play them at night clubs. "Invitation" is an old standard that jazz musicians love to jam on. This version has a high energy latin feel to it. It features superb drumming by Stefan Flores, and great solos by Geoff on Tenor, and Brad on piano. The last tune on the CD, which is the title song, is one of Brad's all time favorite ballads. It was written by Hoagy Carmichael and Johnny Mercer, and it's called "Skylark". Brad Bietry is a professional jazz pianist. He is currently the pianist in the USAF Academy Falconiers Jazz Ensemble.
