The Jazz Apokalypse. The artist based out of the mideast, has compiled a group of instrumental music to challenge the listeners ideas about jazz. Although similar to some artists, his music follows a doctrine of radical bass chanting keyboards, sax, trumpet, guitar thats over the top. Ethereal is the best word to describe the mood of the artist and his work. His music was born of the struggle to survive as a christian in the new millenium. All of Dan's music is either synth/computer based or guitar oriented. When your friends ask who the heck is that, just tell them that THE JAZZ APOKALYPSE HAS LANDED!!!
