-----xxxxxxxxxxxxxxxxxxxxx----- Plus You A Bonus Minisite Template, with Private Label Rights! "But How is Your Template Any Different from the Hundreds of Minisite Templates That Are Gathering Dust on My Hard Drive?" You have no doubt purchased dozens of minisite templates before. However, here is where my template differs from the rest: You DO NOT need Photoshop to edit this template. I hate the idea of anyone having to invest \$600+ in Photoshop just to edit some templates. Come on, we are not trying to be graphics pros here! That is why I have made it as easy as possible for you to edit the template without investing an arm and a leg in any image editing software. This template is completely CSS-based, so you can use just about any HTML or text editor to edit it (I however recommend you use a CSS editor like Dreamweaver, TopStyle or Style Master to save time). You can change colors, fonts, anything you like, and use the same template on as many sites you wish! You don't need to learn CSS to use this template; however a little bit of HTML knowledge would come in handy.

Special note: The bonus template contains some editable PSD files in addition to CSS style sheets.

However I personally feel you dont need to edit the PSD file unless you want to have a complete overhaul of the template! Please note that NO salesletter is provided with the product!
