Stefan J. Kowalski / Preface- Arun S. Mujumdar / An Overview of Global R&D in Industrial Drying; Current Status and Future Directions- Zdzislaw Pakowski / Modern Methods of Drying Nanomaterials- Y. Itaya, S. Uchiyama and S. Mori / Internal Heating Effect and Enhancement of Ceramic Drying by Microwave Heating with Dynamic Control- Stefan J. Kowalski and Andrzej Rybicki / The Vapor-Liquid Interface and Stresses in Dried Bodies- Patrick Perre / Multiscale Aspects of Heat and Mass Transfer During Drying- Stanislaw Pabis / Theoretical Models of Vegetables Drying by Convection- Marcin Piatkowski and Ireneusz Zbicinski / Analysis of the Mechanism of Counter-Current Spray Drying- T. Metzger, M. Kwapinska, W. kwapinski, M. Peglow, G. Sagge and E. Tsotsas / New Modelling and Measuring Methods in Drying Science and Technology- Musielak Grzegorz, Banaszak Jacek / Non-Linear Heat and Mass Transfer during Convective Drying of Kaolin Cylinder under Non-Steady Conditions- Wieslaw Olek and Jerzy Weres / Effects of the Method of Identification of the Diffusion Coefficient on Accuracy of Modeling Bound Water Transfer in Wood- Stefan J. Kowalski and Anna Smoczkiwicz / Stresses in Dried Wood. Modelling and Experimental Identification- J. stawczyk, S. li, D. Witrowa-Rajchert and A. Fabisiak / Kinetics of Apple Atmospheric Freeze Drying- M. Araszkiwicz, a. Koziol, A. Lupinska and Michal Lupinski / Microwave Drying of Various Shape Particles Suspended in Air Stream- Roman G. Szafran and Andrzej Kmiec / Periodic fluctuations of flow and porosity in spouted beds- Jzef F. Nastaj and B. Ambrozek / Modelling of Vacuum Desorption of Multicomponent Moisture in Freeze Drying Process- Artur poswiata and Zbigniew szwast / Optimization of Fine Solid Drying in Bubble Fluidized Bed EAN/ISBN : 9781402054808 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Kowalski, Stefan Jan
