Details: On his debut solo release, The Music within, Brian plays electric and acoustic guitar , electric bass and fretless bass. This multi talented musician and composer wrote and arranged all the tracks on the album. Like Bella Fleck and the Flecktones , Brian Clacher is not easily categorized. His guitar work exhibits both an advanced and unique technique as well as a distinctive and original style .Stan Herrman L.A. Times Artists Weekly. Says Brian: Since I'm a terrible singer , most of my tunes I've written are of an instrumental nature. All of the tunes on the cd were written with stories in mind. My own influences are vast so I tend to be all over the board as far as a particular style. I did try to write a album that tells a story and one that one could listen to and take a small journey in their mind.
