World class Conscious Soul 10 MP3 Songs WORLD: World Fusion, POP: Today's Top 40 Details: The Enchanted CD project is the first CD released from Ichinen Records and is my debut album. This record features world class recordings that blend sensual passionate vocals with conscious raising lyrics. This is an eclectic album which features the enticing hit "Enchanted" -an alluring latin flavoured track. This CD is an exciting mix of both Spoken Word and Song that defy categorization. Featured are guest artists Venus Reid, and Raquel Caldwell. Also featured is the special dedication song, "Freedom," featuring my father, the late Honorable Judge Vernell E. Fuller, who made it all possible with his legacy and influence. There was both tragedy and joy involved in seeing this album to fruition. One of the saddest moments was the loss of my father only weeks after he recorded "Freedom". I had been undergoing healing when the following year I lost my Aunt Caroline who'd supported me throughout my life and especially my journey to become a dentist. I was very stressed and burned out from my day-job as a dentist yet determined to keep going until I got a break as an artist which is my true passion. Presently, my focus is on my mission as a healer through my art, writing and medicine. There is no separation between these worlds. In ancient Kemetic society, Art and Medicine were interwoven in teaching and implementation. In our Western society they are dissociated and we have seen the degeneration of both disciplines in great magnitude. My chosen path on this spiritual journey of life is Buddhism. Like my mentor, Tina Turner, who overcame abuse and suffering before me, (who is also a fellow Sagittarian and got her career start in St. Louis), I chant "Nam-myoho-renge-kyo" (devotion to the mystic law of cause and effect) for personal happiness as well as world peace. Ultimately, I know in each struggle there is a lesson to further us on this journey of life. I have the "ichinen" to persevere no matter what others think or say about me and what obstacles come my way. This determination is the crux and meaning of my record label, "Ichinen Records." As I

state in my father's song "Freedom" if you don't know your name you'll answer to any old name. Truth has no need to be achieved or proven because it is already as it is. And so I bring forth - with humility, poise and grace - the essence of Camille. All instruments and arrangements on my album were performed by Mr. Al Caldwell including his exclusive 11 string bass accompaniment. I have much gratitude and appreciation for his extraordinary work. Words of personal encouragement and interest; "A great human revolution in just a single individual can change the destiny of mankind." Pres. Daisaku Ikeda/ President, Soka Gakkai International "Mediocrity is death." Rev. Howard Thurman
