

Mp3 Dave Christensen - The Bosom And The Pool

[DOWNLOAD HERE](#)

As a songwriter and collector of sounds, Dave has blended funk, rock, ska, Tex-Mex, jazz, swamp, gospel and Latin into a cohesive collection of memorable songs. 12 MP3 Songs URBAN/R&B: Funk, ROCK: Modern Rock Details: Dave Christensen is the groove that travels from Africa to Abbey Road, from Mexico to Memphis. The groove that dances in Jamaican dance halls, jazz clubs, blues bars and Bourbon St. Dave Christensen is the musical equivalent of Tom Waits and Thelonius Monks bastard child. Embodying the personalities of an accomplished songwriter, a prolific improviser and a mad-cap arranger, Daves music is deep and rich in texture, yet accessible to the listener without being overbearing or self-indulgent. His voice puts the gritty in integrity while his lyrics navigate the space between the physical and emotional universes and investigate what pulls us apart and what holds us together.. He arranges the traditional instruments, such as organ, horns, guitar, strings, accordion, woodwinds and percussion (among others), to create unique sounds that juxtapose different musical neighborhoods. Daves shows not only entertain, but take the audience on a journey through the world of rhythm and style. From New Orleans 2nd-line and African beats to Rock and Funk fueled Rhythm and Blues, Dave has open ears that can assimilate many genres into a cohesive sound, making him a musical visionary akin to Prince or Beck. Dave has studied music since age 6 and started song-writing at age 12. In college he studied improvisational music and poetry, developing an understanding between the music of the spoken word and the communicative power of music. Dave spent the next ten years living in Galena, a small town in Illinois, developing his style through playing live shows and as a studio musician, playing on over 100 tracks. Over the past 2 years, Dave wrote, arranged, produced and recorded his debut album, The Bosom and The Pool, using over 35 musicians to create varied textures and rhythms. Having recently relocated to Burbank, CA, Dave is working on new songs, promoting his album and becoming

established in the L.A. music scene.
