The music is flavored in equal measure by old-time, bluegrass, southern gospel, and country blues - led by three-part female harmonies coupled to fiddle, flat-top guitar, and upright bass. The resulting sound complements the national interest in traditional acoustic American music most demonstrably proven by phenomenal sales of the "O Brother ..." soundtrack. Their musical backgrounds range from punk rock to off-Broadway to choral singing to contra dance accompaniment. The members of Dead Men's Hollow find common ground in the grand canon of acoustic American song.
