Johnson holds a Ph.D. in educational administration and she gave up her life in academia in December 1995 to pursue her calling, passion, and divine purpose. About the Full Circle CD project Dr. Johnson said: "I stand in awe of who and what God uses to carry out His plans. Thank You, Lord, for using me and the songs You birthed through me to usher in individual and family restoration in this project. You have spoken through your intimacy in these songs reminding us that even in your majesty You are concerned about who we are as total beings. You know that our hearts long for love and our hands seek to be held and so You use those longings to bring us Full Circle. It's then that we realize that it was You all the time ... meeting every need, opening every door as only You can."
