

Mp3 Hitmatyze - The Beat

[DOWNLOAD HERE](#)

Good, clean, hard, high-energy, pop/dance songs that are great for dancing and exercising and unfortunately urge you to speed while driving in your car. 11 MP3 Songs POP: New Wave, ELECTRONIC: Dance Details: Beats kick, basslines thump, walls pulsate, car windows vibrate, men cheer, women scream, everybody dances, and it's all because of HITMATYZE. HITMATYZE is a Dance/Pop duo from Anaheim, CA, dedicated to creating music that moves the body, whether the body wants to move or not. In a day and age when pop music is dominated by the artist only singing and the producer doing everything else, HITMATYZE prides themselves on covering all the bases. Writing, arranging, producing, and performing, HITMATYZE does it all. The sound HITMATYZE has captured is not only relentless, but also inviting, which is undeniably their proven formula for instant loaded-dance-floors, gyrating bodies, and sweaty environments as a whole. Tonee "Freaky Tee" McGuire, a synth and programming maverick, met Gino "G-Force" Garcia, a Latin percussion guru, in 1989 while doing shows with former Epic recording artist Louie Louie. This encounter proved to be a match made in techno heaven. His ability to manipulate beats, basslines, and synth textures remains cutting edge, while his vocal lines are always a cut above the norm in terms of hook, quality, and energy. G-Force gives HITMATYZE its Latin flavor with his skilled percussion and his deep, raspy Spanish vocal rumbling inside the groove, providing HITMATYZE with a sound all its own. It is rare to hear a sound that is both polished and raw, and just as rare to witness a group that is at the forefront of today's sound with the ability to stay there. Together, Freaky Tee and G-Force are setting a new standard for the Dance/Pop genre, and doing it with visual style, performance tenacity, and surprising ease. So prepare to jump, prepare to dance, prepare to scream, prepare to sweat, prepare to be HITMATYZE'd..
