I have been involved with Musik literally from before my birth, to the present moment. My Mother Antoinette (Nettie), loved listening to Musik. We spent many wonderful hours listening to many different kinds of Musik. Pop, Classical, Italian, Puerto-Rican, Big Band, Rock 'n' Roll, Jazz. Opera, and more. I even had my own record collection! Tubby The Tuba was one of my favorites. My Father Charles (Charlie), also loved Musik, Louis "SATCHMO" Armstrong was his favorite musician. My Father was a wonderful dancer, the best in our whole family! After banging on pots 'n' pans for a long time, I finally got a set of toy drums for Christmas. This was the beginning. At this time I was my Father's Movie-Buddy. We went to see all of the Classic Science-Fiction movies of the day. My Grandmother Caroline (Diamond Lil'), bought me lots of great Science-Fiction books to read. After all these years, my love for Science-Fiction is greater now than ever before. I have always been fascinated by metal and plastic. I loved the feel of the different metals my Father would bring home from work for me. I had a really nice collection of Metal and Plastic toy robots. In addition to the support of my Mother and Father, my Sister Sheila (Shazzie), and my Brother Salvatore (Billy-K), have always helped and encouraged me. At a young age, I was playing

Classical and Pop Musik on the Clarinet, and Sax. As a teen-ager I played Sax in the School Band during the week, and played Rock 'n' Roll with my friends on the weekends. In 1962, while working on my 1955 Austin Healy Mille-Miglia, I was introduced to my Wife Maxine (OVE), "The Woman of My Dreams". In 1963, we were married. We were blessed first with our Son John (DJ) 1964, and then with our Daughter Michelle (Grinch) in 1966. We moved to Hollywood California in 1969. I began studying Metaphysics, Psychology, Behavioral Science, Philosophy, Humanities, Physical Culture, and Nutrition. At this time, I also started playing Guitar, Electric Bass, and Trumpet. Over the years I have studied many different things, such as, Transcendental Meditation, Christian Science, Science of Mind, Scientology, Yoga, Buddhism, Numerology, Astrology, Herbs, Aroma-Therapy, and Bio-Feedback Research. In order to support my family, I worked in factories, machine shops, the electronics industry, and the movie industry. While working at the Bulova Watch Company, in New York, I made some amazing discoveries about Quartz Crystals. I played in many local So-Cal Jam Sessions from 1970-1990. My favorite "Hang-Out" was Jimmy Smith's Supper Club in North Hollywood (no longer exists). This gave me the opportunity to play with "The World's Greatest Organist, as well as many other fabulous musicians. When the Supper Club closed down, it was like "The End Of An Era" for me. In addition to holding my own Jam-Sessions, I formed my own band to play locally. We were known as MEDLEY. We played a variety of Musik including, but not limited to: Jazz, Blues, Rock 'n' Roll, Pop, Standards, Avante-Garde, and Experimental. In 1994, my Daughter married Alan. She has blessed us with our Granddaughter Cydney in 1996, and our Grandson Cooper in 1999. In 1997, my Son married Michelle, they are expecting their first child in November. I have had 3 Near-Death Experiences. Almost drowning in a tub once, and severe Electric-Shock accidents twice. At one point in my life, when I was ill, I had a life-changing connection with the Divine Consciousness. It was a Brilliant White Light, accompanied by a feeling of Unconditional Love, and Great Joy. My Family is the most important part of my life. I feel very fortunate to have so much love all around me. The Women in my life have always had a tremendous positive impact on me. They exemplify the "Selfless-Love" that is part of the "Feminine Mystique". In addition to my "Mother and Child Musik", I am planning a special tribute to Women CD and booklet. I have always had, and will continue to have, a very special appreciation for the Women in my life, and all Women, all over the World. In addition to all of my other activities, I enjoy Flying U-Control Model Airplanes. Always "The Mad Scientist", I even blend my own fuel. I also have a passion for Classic Cars and Motorcycles, as well as Sports Cars, and

Racing Cars. My father had a Midget-Racer when I was very young. It's in my blood! I am also interested in the work of Nikola Tesla, the "Father of Alternating Current". When I was young, I loved stuffed animals, my favorite was a Black Scottie Dog. My home has become a haven for homeless stuffed animals, the children love it! I love youngsters, and feel that the future is in their hands. I believe we should not teach our youngsters anything that is not worthy of perpetuity. At this point in my life, I am utilizing my talents to produce products designed to make life better, through the use of "Positive Kozmik Vibrations". My favorite colors are: Red, Black, White, Green, Blue, Orange, Silver and Gold. "My Work Is Totally Original And Unique". "It Is Channeled Through Me From The Kozmos". "I Am The Medium For Artistik Expression From Another Dimension". Some of my completed, and future projects include: RED BOOK 2000.....A driving guide for The New Millenium.
