Working alongside executive creative partners, Christyle Trakz and Talent, Kizzo has inserted his style vision into an endless amount of the labels projects. Whether hip hop, r&b, inspirational or pop, if its a sure hit thats needed, Kizzo is on it! Kizzos artistry is similar to his child hood, it involves a little bit of everything. Residing in various Texas cities (Houston, Dallas, Bryan, Nacogdoches and Huntsville) taught him to adapt, and become quite versatile. His first acknowledgment of his love for music came from hearing acts like New Edition, Michael Jackson and LL Cool J. He later formed many r&b, hip hop and gospel groups before taking a break as a performer to follow his later dream, which was to become a true song writer/producer and follow in the footsteps of other influences like BabyFace and Teddy Riley. Charles received a degree in Music Video Business, and in 2002 incorporated his experience, education, talents and overall passion for music with young indie label Seven Figure Entertainment in efforts to catapult them both to the next level. Now, after five years of service to SFE, Kizzo is stepping back into the artist realm with his 13 track debut solo album entitled Show Goes On, released on the SFE label. Executive Album Producers Christyle Kizzo work to bring listeners a clever blend of Hip Hop, R&B and Pop. After this project Kizzo plans on returning to the role he relishes the most, being a writer and producer. Of course this doesnt mean that Kizzo wont shift back into artist mode and kick out another Kizzo classic for his listeners to add to their collection. . . when the time is right.
