Film soundtrack compositions, ranging from orchestral to electronic, that may or may not have made it to a movie... 20 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Virtual Orchestra Details: Composer Lionel Cohen has assembled a collection of 20 tracks for his first volume of Selected Film Scores that have not been used in major motion pictures. A variety of styles and influences can be heard on this collection, ranging from traditional orchestral (with modern elements), to ethnic and Middle-Eastern, to electronic and borderline industrial. The music evokes in us scenes of opening titles, car chases, war tragedies, karate fights in the Chinese mountains, strolls in English gardens, and end-credits, to name just a few. Superb arrangements and flawless execution make this album a gem for any lover of both music and cinema. dna-productions.com
